Provided that the films of documentaries, cartoons, advertisement shorts and the like may be examined by the Secretary alongwith a Member of the Board.

(2) The following shall be the ratings of the films :-

- (i) **U: Universal Audiences (General).** The motion picture contains nothing in theme, language, nudity, sex, violence or other matters that, in the view of the Board, would offend parents whose younger children view the film. The U rating is not a "certificate of approval" nor does it signify a "children" film. No nudity, sex scenes or drugs used or present in the motion picture.
- (ii) **PG: Parental Guidance.** A parental guidance film should be investigated by parents before they get their younger children attend. The parental guidance rating indicates, in the view of the Board, that parents may consider some material unsuitable for their children and the parents should make the decision. There may be some profanity and some depictions of violence but these elements are not deemed so intense as to require that parents be strongly cautioned beyond the suggestion of parental guidance and there is no drug use content in a parental guidance rated film.
- (iii) **Parental Guidance-13 (Parents cautioned).** There may be some material that would be inappropriate for children under the age of thirteen. A PG-13 rating is a stern warning to parents by the Board to determine whether their children under the age of 13 should view the motion picture, as some material may not be suitable for them. PG-13 rated motion picture generally shall not be sexually oriented and there may be depictions of violence in a PG-13 film but generally not both realistic and extreme or persistent violence.
- (iv) **PG-15: Parents strongly cautioned.** A PG-15 motion picture contains some adult material and requires accompanying parent or adult guardian. A PG-15 motion picture may include adult themes, adult activity, hard language, intense or persistent violence, drug abuse or other elements so that parents are counseled to take this rating very seriously. Children under the age of 15 are not allowed to attend PG-15 motion pictures unaccompanied by a parent or adult guardian.
- (v) **18+(Adults).** An 18+(A) rated motion picture is one that, in the view of the Board, most parents would consider patently too adult for their children 18 and under. The 18+(A) rating is appropriately only for adult audience and can be based on violence, sex, aberrational behaviour, drug abuse or any other element that most parents would consider too strong and thereof off-limits for viewing by their children.
